# Poly RP Touch Panel

Press the touch panel to wake the system from sleep mode

Touch panel - default state.
The call is not in progress

1. **Join the meeting**
   - From the calendar view, press the **Join button** to join the meeting
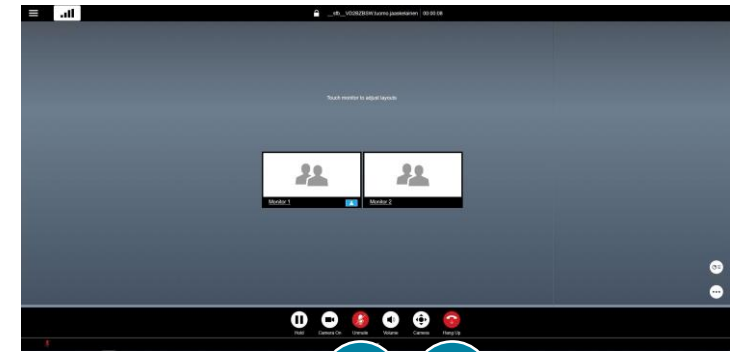

2. **Mute the microphone when you are not talking**
   - The microphones are sensitive, this way you avoid disturbing sounds during the conference

3. **Disconnect when the meeting ends**
   - Press **Hang Up** button to end the call

Touch panel – call in progress
